Abstract

Cosmetic Method and Composition for Enhancing Attractiveness

5 Hair removal, especially from armpits damages skin, for
example by irritating it, and this can be exacerbated by the
application of antiperspirants to control body odour
generation. In the present invention, the deleterious
effects of hair removal, eg shaving, and antiperspirancy can
10 be ameliorated by employing antiperspirant compositions
containing a natural oil and glycerol to a combined
concentration of from 1.5 to 15% by weight and in a weight
ratio of from 4:1 to 1:4.
